Lostine Reporter: Mrs. T. B. Day and son Glenn of Asotin, Wash., are here on a visit to her daughter, Mrs. Orville Foley. Mrs. Day was at one time a resident of Walla Walla county, living on upper Prairie Creek. Vegetation in that part of the world is much farther advanced than here. Mrs. Day brought from her own garden a sample of the early products, also strawberries and raspberries. All this is good to think about and toothsome in reality. Yet, the bumper crops Walla Walla county will show up a little later in the way of hay and grain will make Asotin county envious.

Chamberlain's Colic, Cholera and Diarrhoea Remedy was given and effected a complete cure. This remedy has proven very successful in cases of bowel complaint in children and when given according to the plain printed directions can be relied upon with perfect confidence. Life 100,000 Years Ago.

Scientists have found in a cave in Switzerland bones of men, who lived 100,000 years ago, when life was in constant danger from wild beasts. To-day the danger, as shown by A. W. Brown of Alexander, Me., is largely from deadly disease. "If it had not been for Dr. King's New Discovery, which cured me, I could not have lived," he writes, "suffering as I did from a severe lung trouble and stubborn cough." To cure Sore Throats, Colds, obstructive Coughs, and prevent Pneumonia, it's the best medicine on earth. 50c and \$1.00. Guaranteed by Burnaugh & Mayfield. Trial bottle free.

FRATERNAL SOCIETY FIGHTING TUBERCULOSIS.

Modern Woodmen Will Conduct Free Sanatorium for its Members.

At the last meeting of the executive council of the Modern Woodmen society, held at the headquarters of the society in Rock Island, Ill., it was decided to conduct that society's sanatorium, located at Colorado Springs, Colo., for the treatment of members afflicted with tuberculosis, free of all charge to members.

The Modern Woodmen society, several months since, acquired 1,350 acres of land within seven miles of Colorado Springs, and has established thereon an up-to-date sanatorium, the tent colony plan being employed. The first colony was opened for the reception of patients on Jan. 1, 1909. It is equipped to care for 60 patients, to which number admissions will be

limited for the present.

The tents are octagonal structures, with shingle roofs, canvas sides, hard wood floors on solid cement foundations, heated by a central plant, equipped with all modern conveniences, such as telephone, etc., and each tent will accommodate one patient. An administration building for physicians, nurses, dining hall, baths of all kinds, etc., stands in the center of the colony.

Dr. J. E. White, formerly of the Nordrach ranch sanatorium, the medical director in charge, states that only those consumptive members who are curable, or whose lives may be prolonged for a considerable length of time, will be admitted as patients. The wisdom of this rule is apparent. Rigid medical examination as a condition precedent to admission will be insisted upon in every case, and special blank forms have been prepared for this purpose.

A movement is already under way to equip the second colony plant of 60 tents. Each tent or tent house, completely equipped, represents an expense of \$250, and a number of local camps, or lodges, of the Society have decided to donate tents. As there are over 13,000 local camps of Modern Woodmen, and over 1,000,000 members, it is anticipated that several colonies will soon be equipped in this way.

The members and local camps of the society have voluntarily contributed to the sanatorium fund over \$70,000, and at the last national convention a permanent tax of ten cents per member per year was voted to the support of this work.

The last official Woodmen reports show that during the years 1891-1907, inclusive, 14.5 per cent of the total insurance losses in those years, or \$9,065,000, resulted from this cause. As the mortality expenses of the Woodmen society has been unusually favorable, being but 70 per cent of the expenses at all ages under the National Fraternal congress table, a death rate of but 6.29 per 1,000—or but 4.95 per 1,000, if the experience of the first five membership years be included—the heavier insurance losses inflicted upon other societies experiencing a higher mortality may be conservatively approximated.

If the Woodmen society, with its exceptionally favorable mortality, finds it to be "Good business" to fight consumption in this way, why should not other fraternal societies, life insurance companies, labor organizations, the national and international church bodies, etc., find it profitable, from the viewpoint of business or benevolence, or both, to take such action?

Each life saved to the Modern Woodmen society, by means of this sanatorium, will, it is stated represent a saving of \$1,700—the average amount of the Woodmen policies in force at an expense for treatment of approximately one-twentieth of that sum.

In the broader sense, each life saved means the preservation to the family of its head and bread-winner, and to the state of a useful, self-sustaining citizen.

Help for Those Who Have Stomach Trouble.

After doctoring for about twelve years for a bad stomach trouble, and spending nearly five hundred dollars for medicine and doctors' fees, I purchased my wife one box of Chamberlain's Stomach and Liver Tablets, which did her so much good that she continued to use them and they have done her more good than all of the medicine I bought before.—Samuel Boyer, Folsom, Iowa.
